| name | species and style | Overall presentation 30 | Pot 10 | Roots 10 | Trunk 15 | Branches & foliage 20 | Health & vigour 10 | Surface 5 | Score Out of 100 | votes | |
| Advanced | | | • | | | | | | | | |
| Richard P | Ash Group | 21 | 7 | 5 | 11 | 14 | 10 | 4 | 73 | 6 | Nice group with small leaves. Rather flat topped so would benefit from more trunk height variation in line with trunk thickness |
| Richard M | Oak | 22 | 6 | 8 | 13 | 14 | 8 | 8 | 75 | - | Very nice trunk and rootbase but needs more ramification. Over potted! |
| Tony W | Acer | 21 | 6 | 6 | 12 | 14 | 10 | 3 | 72 | 6 | Good overall shape and interesting trunk line. Needs more ramification. Over potted! |
| Brian | Larch | 20 | 6 | 6 | 11 | 14 | 10 | 4 | 71 | 3 | Could be improved by sweeping branches down a little. Over potted! |
| Tony M | Larch group | 21 | 6 | 5 | 12 | 14 | 8 | 3 | 69 | 2 | Group sits much too high in the pot and might look better on a slate or similar. Remove the dead trunk to create negative space. |
| Nigel | Juniper | 22 | 5 | 3 | 11 | 14 | 9 | 4 | 68 | 1 | Extend the shari to look more natural. Bring top forward. Perhaps a deeper unglazed pot |
