A1 Richard	Oak	15	5	8	10	10	10	3	61	2	Pretty tree with good trunk movement. Needs more branch development on right side and in the apex. Pot goes well with the design but the drip tray detracts from the image.
A2 Tony W	Trident Maple	22	5	8	12	15	10	3	75	5	Delightful little tree. Good trunk movement. Branches would benefit from wiring downwards. Apex could be reduced to give the tree a more powerful image. Pot draws the eye away from the tree and detracts from the design.
